TECHNICAL SKILLS

- **Programming Languages:** JavaScript, C#, Python, C++, C
- **Frameworks & Web:** React, Next.js, Node.js, ASP.NET, HTML, CSS
- **APIs & Backend:** REST APIs, Authentication, Client-Server Architecture
- **Databases:** SQL Server, MongoDB, SQLite, SQL
- **AI & Integrations:** Generative AI, Gemini API, LLM API Integration, Prompt Engineering
- **Tools & Platforms:** Git, Linux, Bash, Visual Studio, VS Code, IIS, Vercel
- **Systems & Other:** TCP/IP Sockets, DITA XML, Adobe FrameMaker

EDUCATION

Carleton University, Ottawa, Ontario **September 2020 – December 2025**
Bachelor of Computer Science with High Distinction, Minor in Psychology, Co-operative Education

- CGPA: 10.45/12
- Relevant Coursework: Algorithms, Data Structures, Operating Systems, Databases, Computer Networks
- Awards: Dean's Honour List (2020-2023), A. Davidson Dunton Scholarship (2021-2022)

WORK EXPERIENCE

IT Analyst – Web Developer Co-op **September 2023 – August 2024**
Royal Canadian Mounted Police (RCMP), Ottawa, ON

- Developed and maintained internal ASP.NET/C# web applications supporting operational workflows for RCMP personnel
- Developed search, filtering, and data management functionality using C#, SQL Server, and DevExpress to improve internal application usability
- Optimized SQL Server queries and database interactions to improve application performance and data retrieval efficiency
- Troubleshot IIS, application, and UI issues to improve reliability for internal users
- Supported testing, debugging, peer code reviews, and Git-based version control within an Agile development team
- Collaborated with analysts, developers, and stakeholders to gather requirements and release updates

Product Content Developer Intern **May 2025 – December 2025**
Ciena, Ottawa, ON

- Created structured technical documentation using DITA XML, Adobe FrameMaker, and AEM for enterprise software releases
- Worked with engineers and product teams to verify technical workflows, system behavior, and release accuracy
- Converted product demos and engineering notes into reusable technical resources for internal and customer-facing use
- Managed documentation versioning, publishing workflows, and review cycles across multiple product teams

PROJECTS

KitchenAid – cuHacking 7 (Next.js, React, Gemini, MongoDB, ElevenLabs) **|** GitHub **|** Devpost

- Built an AI-powered recipe application with a team during a 36-hour hackathon using Next.js, React, MongoDB, Gemini, and ElevenLabs.
- Integrated the Gemini API through REST calls to generate personalized recipes based on ingredients and dietary preferences.
- Implemented the Pexels API to dynamically retrieve food images for generated recipes.
- Collaborated with teammates to integrate backend services with the frontend application and deliver a working prototype.
- Worked with Git and GitHub in a collaborative development environment under a tight deadline.

Library Book Data Log System (C, TCP/IP Socket, Client-Server Architecture) **|** GitHub

- Designed and implemented a client-server system using TCP/IP sockets, enabling communication between multiple clients and a central server
- Implemented client-server communication protocols for book management operations
- Debugged memory leaks and socket communication issues using Linux development tools
- Tested concurrent client connections to ensure reliable request handling

Personal Portfolio Website (React, Vite, JavaScript) **|** Live Demo

- Built and deployed a responsive portfolio website using React, Vite, and JavaScript, featuring project showcases, interactive animations, and a mobile-friendly user experience.
- Designed responsive user interfaces with custom animations for desktop and mobile devices.
- Developed reusable React components and managed application state to create an interactive user experience.
- Deployed the site through Vercel with custom domain integration
- Integrated GitHub projects and live demos to showcase software development experience.

VOLUNTEER EXPERIENCE

In-Office Volunteer **November 2022 - Present**

Unified Support Centre, Carleton University Students' Association, Ottawa, ON

- Prepared and distributed food hampers and essential supplies for students through the Emergency Essential Assistance Program
- Supported campus safety by escorting students through the safe-walk program
